CHARGING STATION WITH AREA LIGHT

Combine outdoor device charging with an LED light to eliminate the need for a stand-alone bollard. Perfect for use in educational, corporate and recreational applications.

CHARGING STATION WITH ACCENT LIGHT

Select a charging station with an LED accent light to enable device charging during the day and after dark. Accent light ensures the station stands out from standard bollards and clearly indicates "charging."

CHARGING STATION

Ideal for areas that are already illuminated, such as outdoor dining areas. Shorter height enables use beside tables or as a lower-profile solution for planter boxes.
