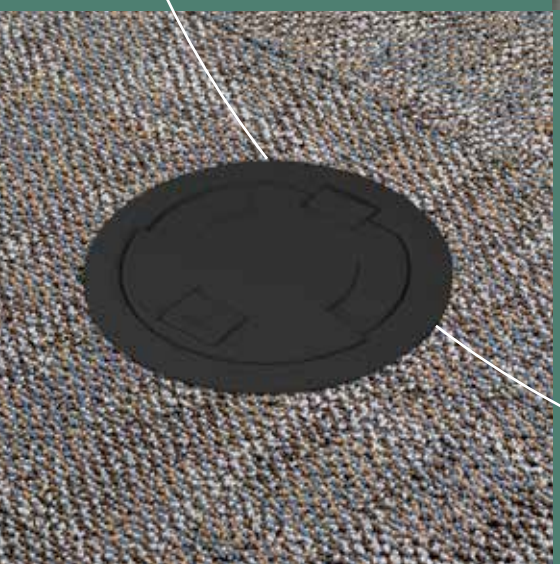
REDESIGNED RFBA® SERIES
FLOOR BOXES

HIT REFRESH

ON YOUR NEXT FLOOR BOX INSTALLATION



designed to be better®

legrand®

Your go-to floor box just got better.

RFBA Series Floor Boxes are newly redesigned for maximum efficiency throughout an entire building, bringing versatile recessed activations for power and data services to open space areas or directly to workstations. No matter what size you choose, components and accessories work across the entire line interchangeably. Simply mix-and-match as needed for your project. Improved wire and cable routing makes wire pulling much easier in adjacent compartments and around corners. Available in 2-, 4-, 6- and 10-gang models with a variety of covers, colors and profiles.*

PERFECT FOR MANY APPLICATIONS

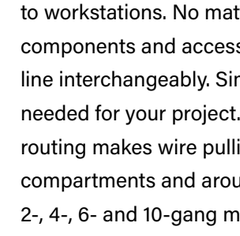
Schools | Financial institutions | MDUs | Commercial offices | Hospitality spaces

INSTALLS IN MANY FLOOR TYPES

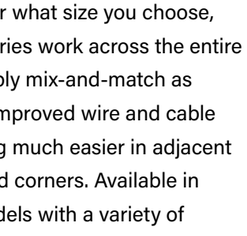
Tile | Stone | Carpet | Polished Concrete | Terrazzo | Wood

NEW & IMPROVED DESIGN

- Eight device plates significantly consolidate SKUs
- Device plates install with just one screw
- Components and accessories now work with all sizes
- Removable plastic insert simplifies installation
- Smoother wire pulling inside of each box
- 2″ conduit feed on standard boxes meets all requirements



2-GANG



4-GANG

6-GANG

10-GANG

FEATURES & BENEFITS

One consistent design.
Mix-and-match RFBA Series Floor Boxes of any size with interchangeable, shared components and accessories. Makes every project installation quick and efficient.

Improved wire and cable routing.
Allows for easier wire pulling in adjacent compartments and around corners, reducing the overall cost for most cabling requirements.

Universal sized conduit feed meets all requirements for each box.
2- and 4-gang shallow boxes accept a 1″ conduit feed, while all standard boxes accept a 2″ conduit feed.

Wide range of capacity options.
Choose from 2-, 4-, 6- and 10-gang sizes to fit any space.*

Two cover options.
Covers include both round and rectangular versions with egress capacity that's sufficient for the number of gangs.*

Two finishes.
Every box configuration is available in either a standard zinc-plated construction or a lightweight "slab-on-grade" finish with fusion-bonded epoxy corrosion resistant paint.

Removable dividers post-pour.
Fully adjustable before and after the concrete pour.

Adapts to most power and communications needs.
Common mounting plates can be used for any of the RFBA Series Floor Boxes. Reduces overall life cycle cost.

Every floor type.
Installs in tile, stone, carpet and wood. When used with the Concrete/Terrazzo Trim Ring (Cat. No. FP-CR or 6CT-CTR), the floor boxes can also be installed in polished concrete or terrazzo.

FloorPort Activation Covers.
Provides TopGuard protection from water, dirt and debris.

Datacom connectivity options.
Accepts industry standard and proprietary devices from a wide range of manufacturers for a seamless interface. A wide selection of data and bezel options are available for use with Ortronics® TracJack™ and Series II devices. Also supports A/V connections.

Height adjustable.
Using the 4″ extension ring, adjust the height as needed to be flush with the floor.

*2- and 4-gang versions with rectangular covers available now. 6- and 10-gang versions with round covers available later this year.
